

SchrempfundRent explore Europe with our Campers and Motorhomes

Get the most out of Europe

With 20+ years' experience in the German rental industry we know the difficulties and the barriers to rent a camper in Europe.

However, Europe offers an unforgettable adventure. The opportunity to see and especially experience different cultures, languages, people and places within a couple of hours drive makes Europe an amazing place to explore by your own car. Start with a breakfast in Germany, have a Schnitzel in Austria and visit the old city of Rome within one day. From the southern coast of Spain to the northern lights in Scandinavia with our car fleet you can visit european countries without any trouble.

Our English-speaking team is looking forward to help you with your individual trip.
