

Get the most out of Europe

With 20+ years' experience in the German rental industry we know the difficulties and the barriers to rent a car as a foreigner in Europe.

However, Europe offers an unforgettable adventure. The opportunity to see and especially experience different cultures, languages, people and places within a couple of hours drive makes Europe an amazing place to travel by your own car. Start with a breakfast in Germany, have a Schnitzel in Austria and visit the old city of Rome within one day. From the southern coast of Spain to the northern lights in Scandinavia with our car fleet you can visit every country without any trouble.

Our English-speaking team is looking forward to help you with your individual trip.

“Happiness is not a station you arrive at, but a manner of travelling”

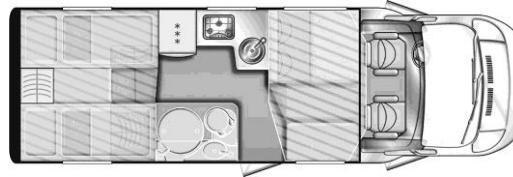

Regulations, Fees and Laws discourage foreigners to travel through Europe. Rental car companies charge high fees for leaving certain countries and entering others.

SchrempfundRent provides you with information and takes care about all the specific requirements so that you don't have to worry about that during your holidays. Our English speaking driver picks you up at the airport and supports you from the first until the last day of your journey.

For a great start to your holiday rent a campervan and save! You will find quality, safety, cheap, and the perfect camper rental. Take advantage of special rates we offer as well as special offers at SchrempfundRent.
